Differentiators

What makes us different from competitors?

Creativision MEDIA has managed the \$1.8 Billion Jackson Health System Miracle Building Bond Program. The Miracle Building Bond program was spread across six campuses and included the first of its kind, Mentor Protégé Development Program (MPDP). This required daily management of all construction manager and protégé firms' construction learning, compliance goals, staffing, monthly reporting, quarterly training review, and documentation. The Creativision MEDIA team managed all program activities from start to project closeout. Now, it applies all of these best practices to its other compliance monitoring programs.
